Our Commitment to Accessibility

Creating accessible products is a priority for McGraw Hill Education. We have put in place processes to make accessibility and meeting the WCAG AA guidelines part of our day to day development efforts and product roadmaps. We measure and track our progress to ensure we continually make improvements to address the evolving industry standards and to meet our learners' accessibility needs. VPATS are available upon request. Our audits and VPATS are completed by a third party.

Testing Process

We are committed to testing with users with different ranges of abilities and disabilities to ensure the usability and accessibility of our products.

A series of tests are conducted to ensure our compliance with the WCAG AA guidelines. Baseline assessments are completed, using a third party vendor, to uncover gaps and inform a remediation roadmap. As new features are developed, an accessibility specific success criterion is defined and all new work is tested to ensure it complies with the criteria prior to release. As these products continue to grow and the accessible feature set expands, semi regular assessments will be completed by an external vendor to ensure continued compliance with the WCAG guidelines.

Content

Alternative Text Files: We provide electronic files for use by students with disabilities. In order to send a file, we require a written request from the disability services center of your school. Requests can be submitted via Access Text Network at www.accesstext.org or submitted directly to McGraw Hill Education. To submit to McGraw Hill, please email us at dLVE@1921REI9@hcs®

		abilities for equivalent structures, pathways, and diagrams. Due to technological constraints, the ALEKS drawing tool is not accessible. However, for select questions that use the ALEKS drawing tool, alternative versions were authored to be compatible with screen reads and can be navigated using the keyboard.
Virtual Labs	<i>Is keyboard navigation available? Do images have alt descriptions? Is product screen reader compatible?</i>	Our virtual labs have been created with accessibility in mind. Effective use of color, keyboard navigation and some screen reader capabilities are present. A VPAT is available upon request.
PowerPoints can be accessed using alternative output devices (screen reader)	<i>Images contain alt descriptions and there is a logical reading order.</i>	PPT's have been prepared to be compliant with WCAG Level AA guidelines.
Additional Resources		No other resources are offered with this title.

We are committed to working with our education partners as we progress in our accessibility efforts. In the event that alternative content formats are required, we will evaluate the options and, when possible, provide as needed.
