

How to Share Media with Students

Video Walkthrough: [CLICK TO VIEW](#)

You can share your media, including recorded lectures, URLs, embedded codes and images in Connect in several ways. **The first option is**
From the section
in the Course materials widget.

Find the name of the media you would like to share and select the 3 dots dropdown on the right. Click

How will this look for your students? Class Media is linked in the Resources heading in the left panel and opens a new page of your shared media.

The second option is to use

assignment type. From the All Media Page click the 3 dots dropdown for the Media you would like to share. Click . From the pop-up window titled

Share Recording, to close. Click the Assignments tab and click Add Assignment. Select the

Selected
