

***SRA Read to Achieve* Placement Test**
Addendum: Placement Schedule

If you have administered the entire *SRA Read to Achieve* Placement Test, and your student does not test into the program because he or she scored greater than or equal to 100 CWPM and 90 percent accuracy on Parts I and III *but* below 80 percent on Parts II and IV, consider the following. Again provide the Part I fluency passage to the student along with the Part II comprehension questions, and have the student read the passage for the second time, silently. The student can refer back to the passage as needed to complete the questions. Rescore the comprehension questions. If the student achieves 80 to 100 percent correct on this second administration of Part II, consider placement into *SRA Read to Achieve* with close monitoring of student progress.
